

Notes 4.7 - Creating Bibliographic (MLA) Citations

In the IB, we use the **MLA format** (see your agenda). The **first** line of every citation is "**left justified**". Any lines **below** are "tabbed" over **five** spaces to the right.

Punctuation matters! Every period, comma, colon, semicolon and quotation mark matters. It is all part of the **MLA format**.

All citations must be in **alphabetical order** by the first letter of the citation.
